CySEC AML:	No. 5134
HRDA Trainer:	No. 3951

Digital Operational Resilience Act (DORA)

Outline of the course:

- This course covered the key requirements and objectives of the Digital Operational Resilience Act (DORA), emphasizing the importance of digital operational resilience for financial entities within the EU. Participants explored practical strategies for compliance and received comprehensive training on managing ICT risks, enhancing organizational resilience, and ensuring adherence to regulatory standards.
- The syllabus is verified by external subject matter experts and can be accredited by regulators and other bodies for the above-mentioned CPD Units that approve education in financial regulation.

The purpose of this course is to:

- Understand the framework and its relevance to the financial sector.
- Learn about the key requirements and components necessary for adherence to DORA.
- Discover effective strategies for mitigating risks from third-party ICT providers.
- Explore the role and advantages of sharing information to bolster security across financial entities.
- Identify common hurdles in compliance and examine best practices for overcoming them.

Regulatory Framework:

- Regulation EU 2022/2554
- CySEC C639, C701

Instructor:

Christos Drakos is currently CEO and Director to a number of Cyprus Investment Firms and Funds.
He has extensive experience in Risk Management, Compliance and AML.
